Starfire Systems® Names Patrick J. Murphy As Chief Commercial Officer

Malta, NY – November 19, 2008, – Starfire Systems, Inc. announces that it has named Patrick J. (PJ) Murphy as Chief Commercial Officer. PJ's new role will be to lead the commercialization efforts of the Starfire team as they bring their polymer-to-ceramic technology™ to the next level in the marketplace. Developing relationships with current customers as well as new customers will be critical for the future growth of Starfire.

PJ has over twenty five years of experience encompassing all facets of business ranging from Sales/Marketing, Business Development, Manufacturing, Finance and E - Commerce. He has worked at numerous materials companies such as GE Plastics, Osterman, Plasticsnet.com and Coz Plastics. PJ holds a Bachelor of Arts degree in Economics from Middlebury College and is a graduate of General Electric's Financial Management Program. PJ began his career at General Electric as a Financial Analyst and rose to the level of Business Reengineering Manager where he successfully designed and directed the reorganization of Sales, Customer Service, Business Support, and Finance. In his most recent position as Director of Sales & Marketing for Osterman & Company, PJ played a key role in increasing Sales Revenue one hundred-seventy four percent and Sales Volume by eighty-one percent.

Rich Saburro, CEO of Starfire Systems, Inc. states that "PJ 's extensive experience in taking new products to market will be a big plus as Starfire commercializes new ceramic automotive and motorcycle brakes over the next few years."

About Starfire Systems, Inc.

Starfire Systems® was formed in 1988 and is the leader in polymer-to-ceramic™ technology. We develop and demonstrate applications from our polymer ceramics that yield high performance products. Our products combine processing ease with the benefits of advanced ceramic materials. We engineer solutions that address demanding applications in aerospace, electronics, transportation, and industrial markets. Starfire Systems® is an ISO 9001:2000 certified company.
